## WHEAT MARKET IN UNSETTLED CLOSE

Drought Breaking in Kansas and Oklahoma Results in Lower Prices.

Associated Press Service:

CHICAGO, May 29.—Breaking of the drought in Kansas and Oklahoma resulted Monday in lower prices for wheat. The market closed unsettled but 3-8 to 1-4 @ 1-3-8c down, with July at \$1.07 7-8 and September at \$1.08 7-8 @ 1.09. Corn gained 1-2 to 1-3-4c, oats finished 1-4 to 1c off, and provisions at losses ranging from 1-2 to 5c.

Fresh rainfalls that gave moisture where most needed in the southwest left the wheat bulls without any immediate argument to uphold beliefs in higher values. As a consequence commission houses were liberally supplied with orders to sell out holdings, and it was apparent that speculative buyers had no intention to delay putting out good sized lines before prices showed too much decline. Buyers, however, were scarce until the market had broken about 1-1-2c a bushel. After that, the shorts, taking into view the holiday tomorrow, evinced a disposition to even up trades.

Assertions that much replanting would be necessary in Illinois, Iowa and Nebraska lifted the corn market.

Oats weakened in price on account of generally favorable conditions for growth of the new crop. What appeared to be a packers' campaign for lower quotations on hogs severely weakened provisions, especially pork.

## TRADING LIGHT; PRICES NARROW

Memorial Day Felt in Irregular Mixture of Gains and Losses.

International News Service:  
NEW YORK, May 29.—Today's excessively stagnant session of the stock exchange bore the familiar ante-holiday aspects with an irregular mixture of gains or losses, the former predominating at the close.

Dealings were the lightest and most contracted of any day for many weeks, the output of the noon hour barely aggregating \$20,000 shares, with a total of only 265,000 for the day.

United States Steel and other standard shares were listless most of the time, but rose briskly with various specialties at the end. Movements in other quarters of the list were seemingly speculative.

The strength and activity of Anglo-French and Canadian bond issues was regarded by Wall st. as having some relation to Prest's Wilson's recent peace address. Total sales of bonds, par value, amounted to \$3,430,000.

United States bonds were unchanged on call.

## Eminent Railroad Head And Financier Victim Of Abscess on Thigh

International News Service:  
ST. PAUL, Minn., May 29.—James J. Hill, eminent railroad builder and financier, died at his home here today at 9:30 o'clock.

Mr. Hill had been ill for about 10 days. Unprecedented efforts to save his life had been made by a large coterie of specialists rushed here several days ago from several cities.

Announcement of Mr. Hill's death was made at his residence. Just a half hour before the end came, Dr. Hermann Biggs of New York announced to newspapermen that his death was momentarily expected.

Practically all of the members of the financier's immediate family were at the bedside when he expired.

Abscess Immediate Cause.  
The immediate cause of Mr. Hill's death was an abscess, which formed on the posterior part of his thigh some time ago, and despite treatment, grew steadily worse.

Physicians practically gave up hope for his recovery when he failed to rally after the operation. His advanced age, 78, and the intense pain which he suffered from the abscess on his thigh had so weakened his general constitution that he was not able to withstand the strain of the operation.
